

Practical Post-Market Surveys Checklist

1. Planning

- ☐ Review the CER/PER for gaps.
- ☐ Draft a PMCF/PMPF Plan.
- ☐ Define clinician performance questions and methods.

2. Execution

- ☐ Collect proactive data from clinicians and patients
- ☐ Conduct targeted surveys.
- ☐ Monitor emerging standards and comparator technologies.

3. Evaluation

- ☐ Analyse real-world clinical/performance vs. claimed specifications.
- ☐ Identify new risks, limitations, or populations.
- ☐ Benchmark against state-of-the-art alternatives.

4. Reporting

- ☐ Prepare PCFF Evaluation Reports (PMPF-ER).
- ☐ Update the CER/PER, PMS Report/PSUR, and Risk Management File.
- ☐ Ensure outputs are audit-ready for Notified Body review.

5. Continuous Improvement

- ☐ Adjust PMCF/PMPF plan to address new gaps.
- ☐ Train staff and align with QMS.
- ☐ Leverage findings for both compliance and market advantage.
